

IWSHM 2023

14th International Workshop on Structural Health Monitoring
September 12-14, 2023
Stanford University, CA

Sponsorship Program

Becoming a sponsor at IWSHM is an exclusive opportunity to showcase your organization to the global structural health monitoring community! IWSHM is a biennial workshop that aims to assess the current state-of-the-art intelligent sensing/diagnostic technologies that are critical to provide real-time monitoring and state awareness of all structural platforms, from aerospace to civil and mechanical systems. The workshop is also intended to promote communication exchange and to showcase the latest development in SHM technologies for practical applications.
